

Nemesis Wealth Projects is proud to offer another qualified and convenient service to the Community.

We launch the new payment gateway fiat-crypto and crypto-fiat in partnership with the leader in crypto bank services Banxa, a reliable and world trusted partner (KuKoin, Binance, etc.).

This partnership will provide a bridge to easier access to DeFi remaining inside the Nemesis Platform.

With a full integration in the Nemesis Website you can buy with your credit card main cryptocurrencies, as ETH-BNB-BTC-MATIC or stable coins as USDT-USDC-BUSD, and directly swap in any Nemesis Token inside our web platform, selecting the relative and preferred network. This is an important step to allow new users and newbie investors to enter in Nemesis, smoothly and safely.

Nemesis thanks all the staff of Banxa for the support during the integration process.
