1. Our motivation

We are in the midst of historical changes to the economic system: ordinary people using their devices (pc, mobile phones, tablets) are transforming the role of Banks and Financial Institutions. Blockchain technology is changing how we perceive, interact with and use money. Crypto started a new way for wealth management. People now have the power to manage their assets in a new way, by themselves, quickly and inexpensively, and to keep their wealth safe from the control of the few.

1. Our motivation

Blockchain technology is growing a faster and faster run and Erc20 is actually the widely recognized as a “serious” one.

The new cryptocurrency **NMS Nemesis wealth Projects BSC** is a decentralized project aimed to create an International Hodlers Active Community based on transparency and trust.

The scarcity of \$NMS will increase constantly, thus increasing its value, thanks to the Monthly Burning Plan.

Our Integrity is the added value of \$NMS and means long lasting value both for \$NMS and for the \$NMS Community.

2. Project overview

Unlike most existing "experiments", "meme", etc. \$NMS will provide advanced web solutions oriented directly to increase the Token value in future and, consequently, to guarantee the wealth of our Community. NMS Token is the newbie of a larger vision of **Nemesis Wealth Projects LLC**. As a matter of facts, the **Nemesis Ecosystem** will form a bunch of investing possibilities integrated and synergistic one with the others.

So we are and we will be, FREE from "change-the-world sterile ideas", proprietary swaps, "our" blockchain, "our" algorithm, etc. Just read the purpose of most of the Tokens: how difficult is to understand what they really explain! Several Whitepapers are written in Ancient Aramaic... and many of them just mean NOTHING.

2. Project overview

We propose reality. Our offer will range from Savings Tokens, to Utility Tokens, to Gaming Tokens and (yes) to experimental meme coins too, mainly oriented to Art and Charity. One will support the others: the strongest will feed the weaker, the most valued will support the charity ones. As it is in a Community or simply in a Family.

A multistage direct business plan to sustain, increase, protect the value of the Token with faith and truth.

Our mission is **just simple**: to increase our holders wealth.

We are you.
